

## **BENTEK Energy Natural Gas Pipeline Flow and Capacity Data and Analytics now available through Logical Information Machines (LIM)**

**Austin, TX – September 28, 2006** – Logical Information Machines (LIM) and BENTEK Energy, L.L.C have agreed to make BENTEK's Natural Gas Flow and Pipeline Capacity data sets available via LIM's data management warehouse services.

LIM is a leading aggregator and redistributor of information to the energy industry and financial services sectors offering access to data gathered from more than 200 sources so subscribers can perform sophisticated analysis of energy, equity, bond and commodity data. BENTEK Energy provides high quality, immediate market information about natural gas production volumes, imports, pipeline transportation flows, storage injections and withdrawals, and demand. Through this alliance, joint customers of the two companies will have the tools to combine information from BENTEK's Energy Data Warehouse with LIM's extensive data and analytic capabilities.

"Offering BENTEK's natural gas flow information, storage estimates, and receipts alongside LIM's other deep energy datasets such as pricing, degree data and government energy statistics is a natural extension and will provide immediate value to subscribers," remarked Brian Leo, LIM senior account manager.

"Recent developments have again underscored the importance of energy industry fundamentals analysis. Access to immediate, quality information about rapidly changing supply, demand and pricing dynamics is key to help mitigate risk in highly volatile markets," said Rusty Braziel, BENTEK managing director. "Through this affiliation with LIM, we enhance the value of the BENport Energy Data Warehouse and bring our value proposition to an expanded group of potential customers."

### **About Logical Information Machines Inc.**

Logical Information Machines (LIM) operates a world-class data center from its technical facility in Austin, Texas. From this location, LIM acquires, quality manages and redistributes data from over 200 data vendor sources to customers world-wide. Since 1988, LIM has provided warehousing, server solutions and research software to the energy and financial

sectors. For more information or an online demo, please visit [www.lim.com](http://www.lim.com) or email [sales@lim.com](mailto:sales@lim.com).

## **About BENTEK Energy, LLC**

BENTEK Energy LLC is an energy market information firm that specializes in bringing clients daily energy market fundamentals and market analysis. BENTEK provides the analytical tools and competitive intelligence needed to make critical, bottom-line decisions in today's energy marketplace. The company goes deep into the data to help clients understand the fundamentals -- how energy is moving, where bottlenecks may develop, and which supply/demand factors impact prices. BENTEK's proprietary information provides energy flow, supply, demand, capacity and storage data packaged with graphics and analysis that aids in quick understanding to facilitate informed decision making. For more information or an online demo of BENTEK's services, please visit [www.bentekenergy.com](http://www.bentekenergy.com), email [info@bentekenergy.com](mailto:info@bentekenergy.com) or call us toll-free at 1-888-251-1264.
